Cityspec

# Supporting You

Cityspec Pest Management Solutions offers a wealth of experience and comprehensive range of services and products. We provide a free initial consultancy and detailed audit of your current protection, or new requirements based on the strategic principle of Hazard Analysis Pest Protection Programme (HAPPP).

## Contract Services

Our fully integrated range of services are tailored to suit individual clients needs and requirements and are designed with the aim of being pro-active allowing you to run your business efficiently.

- Tailored solutions
- Dedicated account manager
- Guaranteed response
- Fully documented reporting systems
- Compliance with legislation
- Part of your due diligence process
- Formal Quality Assurance System

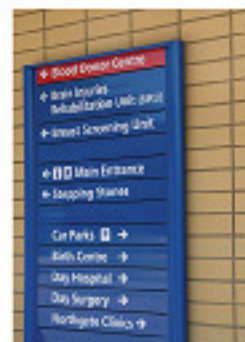

## Bird Control Systems

Our detailed audit and survey will be followed by a written RISK ASSESSMENT, METHOD STATEMENT and specification designed to provide a total service. Our systems are designed to be unobtrusive and all works are carried out in accordance with our strict Health & Safety System and in a humane manner.

### Five point solution.

- Proofing
- Repellent Systems
- Population Control
- Fouling Clearance
- Area Disinfection

## Flying Insect Control Systems

Cityspec Pest Management Solutions provides a comprehensive strategy designed to deal with the hygiene hazard posed by flying insects. This based on the principle of PREVENTION ERADICATION and ADVICE.

- Supply & maintenance of electric fly killers (EFK's).
- Supply and installation of insect screens.
- Supply and installation of plastic strip curtain doors.
- Consultancy, audit and recommendation.

## Trend Analysis

An integral part of our professional service is to use our expertise by analysing past and present trends, thereby forming the platform of our pro-active approach designed to lead to a pest free environment.

## Technical Training

Cityspec Pest Management Solutions has the capability to train your staff which is an important requirement of the Food Safety Act 1990.
